**Time and date of next TWG meeting:** 7 May 2008

---

### Questions for discussion:

We have 45 minutes scheduled for discussion today after the main presentations. During this time we encourage you to ask questions and share your thoughts.

As this meeting follows a youth theme questions do not necessarily need to relate directly to the presentations and could be of a general nature. The following are food for thought:

1. What are some difficulties and opportunities in working with youth?
2. What are the gaps and what types of projects do youth themselves see a need for?
3. Who are young people's role models in Viet Nam?
4. How can we strengthen advocacy efforts for primary prevention of HIV?
5. How has the role of parents changed recently?
6. Is it acceptable to teach young people about reproductive health and contraception?
7. Is Viet Nam going through a sexual revolution? What are the causes and effects of this?
8. Currently many HIV prevention programs target young men. What kind of programs would work well for young women in Vietnam?
